KIDNAPER OF BLAKELEY COUGHLIN CONFESSES; SAYS CHILD IS DEAD

August Pasquale, the Crank,
Tells State Police Officers
He Stole the Baby.

BUTTONED HIM IN COAT

and Gave Only Short Distance From
Coughlin Home When He Discovered
the Child Had Smothered to
Death, He Says; Search For Body.

By Associated Press.
HARRISBURG, Oct. 11.—August Pasquale, the crank, has confessed to Mayor Lynn F. Adams, superintendent of the Pennsylvania state police, that he stole Blakeley Coughlin from his home in Norristown and smothered the child under his coat.

He declared he buttoned the coat around the baby when he had done so, and when he had gone some distance from the house he found the baby was dead.

Major Adams said that Pasquale had sent for him yesterday and while he was talking to him in the Montgomery county jail the prisoner confessed.

Pasquale told me in just as many words that he had gone into the room where the baby was sleeping, put the child under his coat and while he was going down a ladder heard a noise, whereupon he buttoned his coat close around the baby," said the major. "He said he ran away and when he opened the coat, some distance from the Coughlin home, he found the baby had been smothered to death."

Major Adams said that while Pasquale had told him that he had done this, the baby could not make that public until the locality had been searched. Major Adams declined to make any further statement.

While the major would not say anything about the location it became known here today that Captain George H. Geisler had been sent to the vicinity of Egg Harbor, N. J.

PHILADELPHIA, Oct. 11.—If Pasquale, the crank, who is alleged to have confessed that he stole Blakeley Coughlin from his home in Norristown, Pa., is telling the truth, it clears up one of the most sensational kidnapping cases since the disappearance of Charlie Ross in 1914.

Over the telephone from Harrisburg, Captain Adams said Pasquale had told him that he had done this, the baby could not make that public until the locality had been searched. Major Adams declined to make any further statement.

OFFICIAL VERSION OF WILSON'S PARIS ADDRESS GIVEN OUT

Statement From White House
Claims to Show Exactly
What President Said.

REPLY TO SEN. SPENCER

Exact Wording of Address Before
High Plenary Session of Peace
Conference Has Been Subject of Con-
troversy Executive and Missions.

By Associated Press.
WASHINGTON, Oct. 11.—The White House made public today what was described as an official version of President Wilson's address at the eighth plenary session of the Paris peace conference. The exact wording of this address directed to the representatives of Roumania, Serbia and Czechoslovakia has been the subject of controversy between the President and Senator Spencer, Republican of Missouri.

The Senator has declared that the President had promised Roumania and Serbia that "if any nation ever invaded their territory he would send the Americans across the seas to defend their boundary lines."

Mr. Wilson in a telegram to the senator said this statement was "false." In reply Senator Spencer called for the official record saying the statement, which he had referred to, was in the " stenographic record of the eighth plenary session in which the President was reported to have said, 'you must not forget that it is for the sake of the world that we are again making the United States will send to this side of the ocean their army and their fleet.'"

The President's words as given in the official version follow:
"How can a power like the United States stand by and see a nation invaded? If any nation ever invaded their territory he would send the Americans across the seas to defend their boundary lines."

The official version of the President's address was furnished to the White House by Fred A. Clegg, of Chicago, who was an official stenographer with the American peace delegation and who wrote "he would be glad to swear to the accuracy of transcript."

WASHINGTON, Oct. 11.—The railroad of the country appealed today to President Wilson against the ruling of the Interstate Commerce Commission that the treasury department might withhold from the roads all further payment due them under the government provisions of the transportation act, until final accounting had been completed by the carriers.

Comptroller McLaughlin issued claims of railroads for income deficits during the period between March 1 and September 30, certified for payment by the Interstate Commerce Commission for less than the total deficit for the entire period could not be made under the terms of the law. The comptroller took the position that the income guarantees to the roads must be paid in full and not piecemeal.

FAYETTE GAS IS TO DRILL SECOND WELL IN YOUNGWOOD FIELD

That Recently Sunk Said to Be Flow-
ing at Rate of Five to Six
Million Feet Daily.

Having drilled in one good well in the Youngwood-Arona field, the Fayette County Gas company is preparing to sink another in the same territory, though somewhat removed from the first hole. Equipment is now being assembled and it is understood operations will be started shortly. General Superintendent J. E. Anglin is personally supervising the work and is also on the scene practically all the time.

The well drilled in a few weeks ago is said to have a flow of between 5,000,000 and 6,000,000 cubic feet every 24 hours. A well of this magnitude will go far toward tiding the territory served by the company over the winter period, it is said.

Only a few feet of well will be drilled. It is understood, the aim being to conserve the supply. There will be no repetition of the McKeesport error in the Youngwood-Arona field. Most of the gas bearing land is under lease in large acreages by concerns which will see that it is not over-developed.

TAX BILL INCREASES

Amount Paid Into Treasury Swelled
By \$150,000,000.

By Associated Press.
WASHINGTON, Oct. 11.—America's tax bill for the fiscal year ending June 30 amounted to \$1,408,075,462, approximately a billion and a half dollars more than was paid into the federal treasury in previous 12 months.

Final figures for the year were contained in the preliminary report of the commission on internal revenue made public last night. It shows that from income and profit taxes the government received approximately three-fourths of all its revenue. In these two items there was an increase of \$1,265,000,000 over the fiscal year of 1919, and for the two years being \$1,265,000,000; 1919, \$2,600,000,000.

From multifarious sources of "miscellaneous" taxation, the levy produced \$1,450,374,000, an increase over the previous year of \$201,000,000.

In the first full year of the prohibition era, there was a net reduction of \$343,000,000 in taxes on distilled and fermented liquors, the report shows. From distilled spirits the government received \$37,907,000 in the last fiscal year, while taxes from the same source in 1919 were \$385,211,000. Taxes on fermented liquors for the last fiscal year aggregated \$14,965,000 and for the fiscal year of 1919, \$117,839,000.

STATE TREASURER KEPHART IN DEAL FOR BIG COAL AREA

He and G. Corrado Purchase
Holdings of Laurel Com-
pany Near Confluence.

THE CAPITAL IS \$200,000

Plant at Shipley, on Western Mary-
land Railroad, to be Developed to
Capacity of 1,000 Tons Daily; New
Homes for Miners, Also a School.

Through a deal closed Saturday State Treasurer H. M. Kephart and G. Corrado of Connellsville became owners of the holdings of the Laurel Coal Mining company, the plant of which is located at Shipley station, a mile west of Confluence, along the Western Maryland railroad.

The company, which is capitalized at \$200,000, was made up principally of Philadelphia men, who retire.

The purchase embraces an electrically equipped mine and approximately 750 acres of prime C vein of coal, which is about four feet in thickness. Development of the mine is to be pushed as rapidly as possible with a view to early increase of the production to a thousand tons daily.

The location is considered an ideal one for a mine and the promised development will insure permanent employment to a large number of men.

Running at capacity 75 to 100 men will be on the payroll of the company. Announcement is made that the owners will continue to pay the standard scale of wages.

A number of modern houses for miners will be erected, it is stated. There are several now occupied. For the convenience of the mining village that is springing up a public school is being erected.

John P. Kephart, son of the state treasurer, will become president of the company and Mr. Corrado treasurer. H. M. Kephart will be on the board of directors. Mr. Corrado is interested in a large number of coal enterprises in the Connellsville region.

LAW ENFORCEMENT MASS MEETING, HIGH SCHOOL, ON OCT. 24

A special committee of the Min-
isterial association met this afternoon
and completed the details for a mass
meeting of citizens to be held in the
high school auditorium at 7:30 P. M.
Sunday, October 24, upon the occasion
of the visit and public address by
National Commissioner John S.
Kramer of Washington.

The Sunday evening services at all the churches will be dispensed with in order that members may have opportunity to be present at the mass meeting.

Commissioner Kramer's address will deal with the problem arising from enforcement of the Volstead act by means of which the 18th Amendment is to be made effective.

TO ATTACK U-BOATS

British Warships Will Show Russian
Subs No Mercy.

By Associated Press.
LONDON, Oct. 11.—Any Russian submarine encountered on the high seas will be attacked on sight by British naval forces, according to a note sent by Earl Curzon, British foreign secretary, to M. Tchitcherine, the Russian Bolshevik foreign minister, on October 2, which is published along with other correspondence recently exchanged between Great Britain and Russia.

Earl Curzon points out that he previously sent a communication regarding the submarine launched in the Black Sea, in which he said that in view of repeated declarations of leading members of the Soviet government that the submarine was to be used in a state of war with Great Britain, and in view of the impossibility of these circumstances of waiting to ascertain whether the intentions of the submarine were hostile or not, there was no alternative but to issue orders to British ships to attack the submarine should it be encountered on the high seas.

BROOKLYN LOOKS TO ACE OF SOUTHPAWS, SHERROD SMITH, FOR VICTORY TODAY

"Duster" Mills, Indian Port
Side Heaver, Will Do Murl-
ing For His Tribe.

CLEVELANDERS JUBILANT

By Associated Press.
LMACUE PARK, Oct. 11.—The Brooklyn Dodgers played today their big gun, Sherrod Smith, one of the leading exponents of southpaw shooting in the National league, to check the rushing offense of the Cleveland Indians who have started a baring against their opponents. In the hunt for the world series championship the Indians have garnered three wins and the Dodgers two. The Indians need only two more victories and the championship of the earth, sea and sky in the way of baseball is theirs. Brooklyn must win today or their chances for the championship will be reduced, owing to the vanishing point. Already the small crowds of the Flatbush faithful, who sit behind the Brooklyn bench, have cheered such a low state of despair that a defeat today of the National league champions would cause a rise in mortality on the lake front before morning.

"I have Smith ready," said Manager Robinson today, "and if necessary can pitch. Remember if we win today we will be all even again."

"Duster" Mills, the Indian southpaw, was all set to take up the hurling bill for the American league champion Cleveland believes the series as good as won and that the playing of the next two games is nothing more than a formality. Set in the reserve stand, Smith would be the high priced when obtained from scouts but there were few for sale.

The war was not hot and the sun burned fiercely in a non-clouded sky. It was a real August baseball cry. Umpires were assigned as follows: County, Phil O'Day, first base; Dwyer, second base; Klein, third base.

NEW BAKERY STARTS

New Plant in Peach Street Put in
Operation Today.

The Fayette Baking company, operators of the new baking plant, in Peach street, which has just been completed, began operation this morning. Eight truckloads left the place early today for surrounding points where the bakery will supply the first loaf of bread to be baked in the county since the war.

The first loaf of bread to be baked in the county since the war was eaten by the family of J. H. Beighley. They all declared it to be fine.

About 30 workers were on duty last night but more will be added to this number as rapidly as they can be secured. The public is invited to inspect the plant anytime. It is one of the most modern bakeries in Western Pennsylvania.

AUTOISTS HURT

Three Men Injured When Their Car
Goes Over Embankment.

Three persons, all employed at Hibbs Mines, were injured last night when their automobile went over an embankment near the West Penn power house in Uniontown. They were taken to the Uniontown hospital. The accident occurred when the driver attempted to make a turn.

James Ringer, 45 years old, a motorist at the mines, suffered a fracture of the left leg and a broken right rib. Paul Kkoak, 35 years old, a miner, had his left leg fractured, and Tooe Talchko, 25 years old, an Italian, was bruised about the body and probably suffered internal injuries.

TAKT SAYS WILSON WRECKED TREATY BY HIS STUBBORNNESS

It Has Been Clearly Demonstrated the
People Will Not Stand for
Article 10, He Says.

SEATTLE, Oct. 11.—Former President Taft, when shown the statement made public by Governor Cox at Springfield, Ill., last night said he recently had given permission for the publication of correspondence between President Wilson and himself during the drafting of the League of Nations covenant. He also said he had repeatedly referred to the fact that Mr. Wilson had consulted with him when the league constitution was being drawn and that there was no element of secrecy about the substance of the communications exchanged.

Mr. Taft held the President responsible for the defeat of the league. "The President wrecked his own league. He wrecked it with Article 10, which he is the author. Personally I would stand for Article 10 because I am exceedingly anxious for a league. At the same time the league to enforce peace, of which I was chairman, had no Article 10 in its proposition."

"It has been clearly demonstrated that the representatives of the people of this country will not stand for Article 10. The stubbornness of the President in refusing to accept endorsement by the Senate of the league covenant without Article 10 defeated the treaty."

Rev. A. J. Allen, pastor of the Colored Methodist church of the West Side, and one of the most active workers among the people of his race in this section, has undertaken the preparation and publication of "A History of the Colored Soldiers of Fayette County in the World War."

The plan of the work contemplates securing the military history of every colored man who went out from Fayette county in the service of the United States and of the part taken by the colored women in the Red Cross and other war-time agencies. No data has ever been compiled of the number of colored men thus serving but it is known that they more than supplied their full quota on the call of the colors. A number of them obtained commissions and some were decorated for acts of conspicuous bravery and in other respects preserved the traditions of their race as soldiers of the United States.

The public is invited to the dedication of all citizens who can provide information concerning the individual history of the colored soldiers.

MISS MARY GLADYS BUTE

When Frank W. Procter, Miss Mary Gladys Bute, daughter of Mrs. C. L. Bute of Uniontown, and Frank Wilson, pastor of Baltimore, Md., were married Saturday afternoon at 4 o'clock in the bride's home with Rev. G. W. Watson, pastor of the Central Christian church of Uniontown, officiating. The bride, who was given in marriage by her mother, wore a gown of ivory satin, trimmed with silk lace, and carried a shower bouquet of white and pink roses. Her only attendant was a platinum bar pin set with diamonds, the bridegroom's gift. The bride's bouquet was a large one, played by Mrs. Earl Axford, there were not attendants and only the immediate relatives and the most intimate friends of the two families witnessed the service. Immediately after the ceremony an elaborately appointed wedding dinner was served. The table was decorated with bud vases, linked with crystal chains and each holding a pink rose-bud. On the center of the table were two large pink candles, holding pink candles, white satin sprays of gardenias, and a touch of green in the color scheme. The guests were pink and green baskets with ribbon-tied handles. Kewpie dolls adorned the attractive place cards.

The bride is a graduate of the Uniontown high school and of Goucher college, and is a popular, socially active Uniontown. She is a niece of Mr. and Mrs. G. L. Armstrong and J. P. Rife of this city, and has a number of friends here. The bridegroom is an electrical engineer and is a son of Mr. and Mrs. W. M. Procter of Raleigh, N. C. Saturday afternoon Mr. and Mrs. Procter left by automobile for a southern honeymoon trip during which they will visit at the former's parents. This week Mrs. Procter will entertain in honor of her son and his bride. On November 1 the young couple will leave for California to spend the winter. Mr. Procter going as a representative of the Black & Decker Manufacturing company of Baltimore, with which he is connected. In the spring they will return to Baltimore to reside.

Among the out-of-town guests at the wedding were I. M. Procter, Raleigh, N. C., the bridegroom's father; Mr. and Mrs. G. L. Armstrong, Conneltsville; W. F. Bute, M. F. and Mrs. J. D. Henderson, and Hugh Henderson, all of Dawson.

TO RE-ESTABLISH STRENGTH AFTER SICKNESS

How Many People in This City Have Done So.

There is one great drawback to recovery for a person who has been sick, and that is the depleted blood and consequent weakness, nervousness and depleted strength. If people in this city who have been ill and are still in a weakened condition could only realize the value of Vinol to enrich the blood, create a hearty appetite and restore strength, drugists would not be able to supply the demand.

For all run-down, nervous, anemic conditions, and for delicate children and feeble old people, there is no other remedy like Vinol. Our local druggists, Ladighy Drug Co., guarantee it.—Adv.

The Common Fault With Most Cooks is to Use Too Much Shortening

ONE of the most embarrassing things for a housewife is to have her cake turn out "heavy"—or her pie crust "soggy." Not only unsatisfactory to the palate but the cause of many people saying: "Pie give me indigestion"—or "I can't eat pastry."

Yet this is a condition easily avoided. Don't use too much shortening. You use 1/2 to 1/4 less Mazola than you need of either butter or lard—with better results.

If it's pie, Mazola will make the finest, most delicate and easily digested crust you ever tasted. Or if it's cake—both lightness and richness will result from using Mazola.

And being an oil it is always ready for instant use—no tiresome "creaming-in."

This is because Mazola is an absolutely pure vegetable fat from an edible source. It is 100% fat—contains no moisture as is contained in butter and lard.

Once you try Mazola you will prefer it to lard and other shortenings.

Escaped an Operation

There is nothing in the world a woman so much fears as a surgical operation. Often they are necessary, but often not; and many have been avoided by the timely use of that good old-fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound. If you are suffering from some dread ailment peculiar to your sex, why not profit by the experience of these two women whose letters follow?

These Two Women Saved from Operations.

Cedar Rapids, Ia.—After the birth of my baby I had such painful spells they would unfit me entirely for my household. I suffered for months and the doctor said that my trouble was organic ulcers and I would have to have an operation. That was an awful thing to me, with a young baby and four other children, so one day I thought of Lydia E. Pinkham's Vegetable Compound and how it had helped me years before and I decided to try it again. I took five bottles of Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and they have cured me. Now I do my own housework, washing and ironing and sewing for my family and also do sewing for other people. I still take a bottle of Vegetable Compound every spring for a tonic. I recommend your medicine to others who have troubles similar to mine and you can use my letter if you wish.—Mrs. PAUL PAPERMAN, 1928 Stone St., Sandusky, Ohio.

Garland Combination Ranges the Best Made

Here is the Combination Range for which we had such a demand during last week's demonstration. Hundreds of women saw it in actual operation. They readily appreciated its many advantages. The Garland Combination is your insurance against a gas shortage. It burns either gas, coal or wood singly or all together with perfect results. It is doubly guaranteed to give complete satisfaction—by the manufacturers and by ourselves.

Garland "Hot-Blast" Coal Heaters

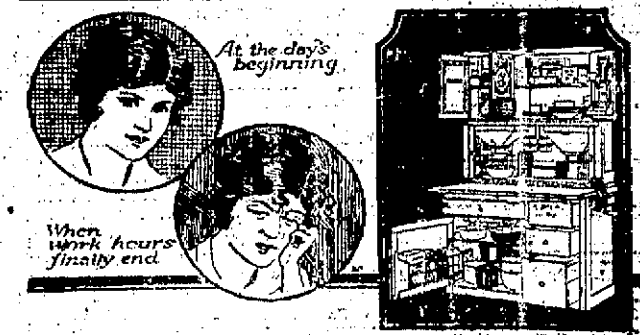

They are scientifically constructed to give a maximum heat with a minimum consumption of fuel—and have proven that they will do just that. Let us tell you why they will raise your temperature and lower your fuel bill.

The New Process Gives Complete Satisfaction

The New Process is the highest grade Gas Range made—yet its cost is very moderate indeed. Its one Gas Range that operates most satisfactorily under all conditions of gas pressure. It is equipped with the patented Lorain Oven Regulator, which does away with much of the guesswork in cooking—eliminates "pot watching."

The board ordered a Cunningham
ambulance to be delivered February 1.
The new ambulance will cost \$5,500,
and is the best obtainable. A cam-
paign will be put on shortly to raise
money to help pay for the vehicle.

Improving Cemetery.
Yesterday with the nice warm
weather took many people for a walk
to the cemetery where the Cemetery
association is improving and making
this into one of the prettiest spots in
the community. The walk to the
cemetery, which had been in an al-
most impassable condition for a num-
ber of years, has been repaired by
council under the supervision of the
street committee. A nice walk from
crushed stone has been made and all
along the street a brick water table
has been put in. The members of the
street committee of council are re-
ceiving the congratulations of the
people on the good work they have
made. Part of the sidewalk is along
farm land and cannot be assessed for
improvement. Since starting the work
the committee has been held up on
material, only being able within the
past week or 10 days to secure what
was needed.

13 Eggs A Day From
17 Young Pullets

Mrs. Niles Starts Cmonths Old
Pullets Laying. Tells How.

"Early in November I bought a pack-
age of 17 young pullets. In the first 30 days
they laid 13 eggs a day. All through the
winter I got 13 to 15 eggs a day. Mrs.
Niles, Ind.

Mrs. Niles found how to
start young pullets laying
and keep them laying all
winter. The secret method
helps hens through the
winter and starts them lay-
ing. You can test this at our risk.

Give your hens Don Sung and watch re-
sults. If you don't find that
it pays for itself and pays you a good
profit, we'll refund your money.
Don Sung (Chinese for egg-laying) is a
scientific tonic and conditioner. It is really
given in the feed, improves the hen's
health and makes her stronger and more
active. It tones up the egg-laying organs,
and gets the eggs, no matter how cold or
wet the weather.

COULDN'T BUY THE GOOD FOR \$1,000

Rochester Woman Gains Twenty-
Three Pounds and Feels Better
Than In Years.

"I have just finished my fourth
bottle of Tanlac and have actually
gained twenty-three pounds," was the
remarkable statement made by Mrs.
Clara Lehman, residing at the Bristol
Hotel, Rochester, N. Y., a few days
ago.

"I wouldn't take a thousand dollars
for the good Tanlac has done for me,"
she continued. "I had been in very
poor health for about ten years and
in spite of all I could do I kept get-
ting weaker until three years ago I
suffered a complete nervous break-
down."

"I could hardly sleep at night, woke
up at all hours with a horrible night-
mare—and scarcely had a minute's
ease or comfort, any sleep I had, no
appetite and have passed many a day
without eating or drinking anything
except now and then a cup of coffee,
and I became so weak I would some-
times tremble like a leaf. I suffered
terribly from heartburn and there
was an empty, faint feeling in the pit
of my stomach."

"Last September I was taken with
bronchial pneumonia and after spend-
ing four weeks in a hospital I came
home so weak I could hardly stand
up and with my old trouble worse
than ever. Many a morning I tried
to get out of bed and would fall right
back from weakness."

"Three years ago I weighed one
hundred and thirty-five pounds, and I
fell off until I weighed only eighty-
five pounds. Since taking Tanlac I
now balance the scales at one hun-
dred and eight pounds and am still
gaining weight and strength every
day. This bronchial pneumonia left
me with an awful cough, which was
so violent at times as to almost pro-
strate me."

"One day I was visiting a friend
who advised me to try Tanlac, acting
on her advice, I began taking Tanlac
and I commenced to feel better so
quickly that it surprised me. My

THIS YEAR'S WAY

In years gone by bottled milk and cream were used by
everybody. But the up-to-date way is Nestlé's Every Day.
It is making bottled milk old-fashioned because it's so con-
venient, so economical, so much richer than bottled milk;
and so safe and reliably pure because it's sterilized.
Up-to-date people use Every Day Milk for cooking,
baking, in coffee, on cereals and for all milk and cream

Certain-teed Roofing is Spark-Proof

Certain-teed will protect your property
against fires due to sparks dropping on
the roof from passing engines. It also
helps to prevent fires spreading from
building to building by means of sparks
and burning embers.

Where fires have started in other parts
of the building, Certain-teed Roofs tend
to smother them and thereby prevent
serious damage to other property.

This type of protection is appreciated by
all property owners and particularly by
those who are outside of the zone of
adequate fire-fighting apparatus.

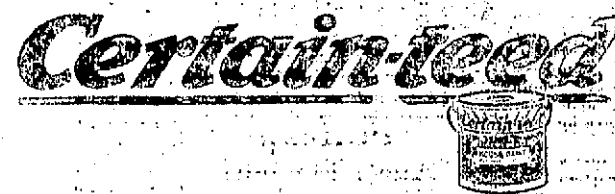

But Certain-teed Roofing is more than an
aid in the prevention of fire. It also
protects from rain or snow, and is guar-
anteed for five, ten or fifteen years, ac-
cording to weight.

It costs less to buy, less to lay and less
to maintain than any other type of good
roofing.

See a Certain-teed dealer about roofing.

THE GREAT SHADOW

By
A. CONAN DOYLE

Author of
The Adventure of
Sherlock Holmes

Well, I followed him, and in the worst of tempers, for I had a feeling that there was some mischief in the wind, and yet I could not for the life of me think what it all meant. What could there be to spy about in a little town like this?

I had just got as far as this in my thoughts when I heard a cheery hail, and there was the major himself, coming down the hill from his house, with his big bulldog, Bouncer, held in leash. This dog was a savage creature, and he was more than one accident on the countryside, but the major was very fond of it, and would never go out without it, though he kept it tied with a good, thick thong of leather. Well, just as I was looking at the major, waiting for him to come up, he stumbled with his lame leg over a branch of gorse, and in recovering himself he let go his hold of the leash, and in an instant there was the beast of a dog flying down the hillside in my direction. I did not think for a moment that there was anything sticky or sticky about it, and I knew that the brute was dangerous. As it came at me with bristling hair and its nose screwed back between its two red eyes, I cried out, "Bouncer! Bouncer!" at the pitch of my lungs. It had the effect, for the beast passed me with a snarl, and flew along the path on the traces of Bonaventure de Lapp. He turned at the shouting, and seemed to take in the whole thing at a glance, but he trotted along as slowly as ever. "My heart was in my mouth for him, for the dog had never seen him before, and I ran as fast as my feet would carry me to drag it away from him. But somehow, as it bounded up and saw the twittering finger and thumb which Lapp held out behind him, its fury died suddenly away, and we saw it wagging its stump of a tail and clapping at its heels.

"Your dog, then, major?" said he, in its owner came hobbling up. "Ah, it is a fine beast—a fine, pretty thing. The major was blowing hard, for he had covered the ground nearly as fast as I had."

"I was afraid lest he might have hurt you," he panted.

"No, no, no," cried De Lapp. "He is a pretty, gentle thing. I always love the dog. But I am glad that I have met you, major, for there is this young gentleman, to whom I owe very much, who has begun to think that I am a spy. Is it not so, Jack?"

I was so taken aback by his words that I could not say my tongue to him, but he colored up and looked around like the awkward country lad that I was.

"You know me, major," said De Lapp. "I am sure that you will tell him that this is not so. Certainly not!"

"Thank you," said De Lapp. "You know me, and you do me justice. And yourself, I hope that you will soon have your regiment given you."

"I am well enough," answered the major, "but they will never give me a place, because there is war, and there will be no more war in my time."

"Oh, you think that?" said De Lapp, with a smile. "Well, now, verities, we shall see, my friend!" He whisked off his hat, and turning briskly, he walked off in the direction of West Beck. The major stood looking after him with thoughtful eyes, and then asked me what it was that had me think that he was a spy. When I told him he said nothing, but he shook his head, and looked like a man who was in a case in his mind.

CHAPTER VIII.

The Coming of the Cutter.

I never felt quite the same to me after that little business at the "peel-down." It was always in my mind that he was holding a secret from me; indeed, that he was all a secret together, seeing that he always hugg a veil over his past.

And when by chance that veil was for an instant whisked away we always caught just a glimpse of something bloody and violent and dreadful upon the other side. The very look of his body was terrible. I bathed with him once in the summer, and I saw then that he was haggard with wounds all over. Besides seven or eight slashes his ribs on one side, were twisted out of shape and a part of one of his calves had been torn away. He laughed in his merry way when he saw my face of wonder.

"Oo-oo-oo!" Coosacks!" said he, running his hand over his scars. "And the ribs broke in an angle, 'um-um-um. It is very bad to have the ribs

Senreco
The double-service
tooth paste,
keeps teeth clean AND GUMS HEALTHY.

Keeping the gums healthy and the mouth sweet is very important to health; more teeth are lost through the loosening of the tissue that holds the teeth in place than from decay.

Dental science to-day demands that a tooth paste must keep the gums healthy as well as clean the teeth.

Senreco was formulated to meet this requirement. Hundreds of dentists are prescribing and using Senreco because they have found that it does measure up to that standard.

SENRECO IS A WONDERFUL CLEANSER.

In addition to its remedial properties Senreco is a wonderful cleanser; acts directly on the mucin film, the basis of tartar; leaves the mouth cool and clean-feeling. As some one has expressed it—Senreco gives one a new idea on mouth cleanliness.

Get a tube to-day at your druggist or toilet counter—enjoy the healthy, cleanly feeling its use gives your mouth and gums. Notice how brilliantly white Senreco makes your teeth. It performs this two-fold service for you and yet costs no more than the ordinary, old-fashioned tooth paste that simply cleans the teeth and leaves a pleasant taste.

CLEVELAND WINS FROM BROOKLYN

Continued from Page Six.

park here Sunday afternoon, with a second home run, four double plays and a score of other fielding and batting features which would have been acclaimed just as thrilling in a normal world's series conflict.

When Wambaganna realized the golden fielding opportunity, fast, confronted him and before the startled spectators could grasp the play, he had sprang to second and stepping on the canvas bag, eliminated Kilbuck who was tearing down to the midway sack under the belief that it was an absolutely safe one and it was a comparatively easy matter for Wambaganna to run up the base line and, touching the incoming runner, complete the first triple play ever made by one player in the long history of the world series.

THE SOISSON.

"OLD LADY 31"—A master picture of the great New York stage success, starring Emma Dunn, with a supporting cast including Henry B. Walthall. The play is being shown today. Emma Dunn has probably played more "mother" parts in her professional career than any other actress on the stage. Her first "mother" part was that of Anna Richard Mansfield's "Dear Dad." For the first time she has created a famous role of a girl in the stage play in which she made such a hit several seasons ago. The play presents a beautiful contrast of youthful romance and the devotion of an aged woman and shows a girl who is a mother to her grandmothers and grandfathers are just the same as other people, only older. A quaint old-fashioned cottage near the Orange County farm at Downey, Cal., served as the setting for scenes of "Old Lady 31." The story shows a girl and her venerable husband as they leave the dwelling that has housed them for many happy years, and stride away to the Old Ladies Home, where they expect to part forever.

THE PARAMOUNT.

"THE BOOMERANG"—A big production presenting an all star cast, is being shown today and will also be the attraction tomorrow. In brief, "The Boomerang" is a tale revolving about the exploits of a free and easy young son of a millionaire, who is disciplined and cast out on his own resources because he objects to the formation of a food trust, of which his father is one of the heads. Henry B. Walthall plays the young man and in every scene of the hard struggle upwards, this sterling actor registers every point with a flawless technique. The young fellow starts as a day laborer and works upward, his heart set upon winning the girl to whom he was engaged. The food trust angles its operations, and trouble follows. He quits a job, helps elect a reform candidate to the governorship. The new administration appoints him prosecuting attorney and he brings his guilty father and also the father of the girl he loves to the bars of justice. What of all, "The Boomerang" is a big picture in every sense of the word. It has suspense, surprise, and leaves thousands perfectly satisfied in the end.

ARCADE THEATRE.

If one wants pleasantly and profitably to while away an evening, one should by all means see "The Bride Shop." There is so much diversified entertainment in the play that one will readily find something of interest. It is a play of melodrama, and "The Bride Shop." It is melodrama. Should one's taste be inclined to farce, see "The Bride Shop." It is farce. Does one's fancy tend to musical comedy or the brightest order, then see "The Bride Shop," for it is musical comedy of the highest order, an anomaly among musical comedies, inasmuch as it is musical and has real comedy throughout the entire action. "The Bride Shop" is one of the most adroitly constructed plays that has ever been seen on the stage. Combining in the plot nearly every form of stage entertainment, it is an cleverly done and the sequence of events have such a logical bearing on the whole play that the story works out without one incongruous incident to mar the smoothness of the performance. The music by Arthur Gorman, who is well known as a composer with ideals and ideas for musical comedy. Several of the songs have become popular, and indeed immensely so, especially "Whistle."

This Is Better Than Laxatives

One Hit Tablet Each Night For A Week Will Cure Your Constipation and Make Sleeping Unusually Easy. Try It.

Poor digestion and assimilation cause a poorly nourished body and "Witch" is a remedy for such a condition. It is a powerful laxative which is absorbed by the blood and carried through the body. The result is weakness, headache, dizziness, coated tongue, inactive liver, bilious attacks, loss of energy, nervousness, poor appetite, impoverished blood, and often these serious conditions. Ordinary laxatives, purgatives and cathartics—salts, oils, calomel and the like—may relieve for a few hours, but real, lasting benefit can only come from the use of medicine that tones up and strengthens the digestive system as well as the eliminative organs. Get a box of Nature's Remedy (Witch Tablets) and take one tablet each night for a week. You will find the very first dose, but a few days later you will feel the full benefit. When you get strengthened out and feel just right again, you need not take medicine every day—occasional use of Witch Tablets will keep your system in good condition and you will always feel better. Nature's Remedy (Witch Tablets) is a safe and cheaper than getting well. It is guaranteed and recommended by your druggist.

Hagan's ICE CREAM

Oh-h-h Skin-nay!

C'mon Over! Hagan's Ice Cream!

"Gee Fellows, Ain't It a Grand and Glor-i-o-u-s Feelin'?"

That all-boy appetite, with its 'most all-day craving, and Hagan's Ice Cream, an all-day food-dessert, are twins. They're the best in their respective lines.

At lunch, after-school, after-the-game, after-play, Hagan's Ice Cream takes the kinks out of the inner craving of the all-boy. Rich, pasteurized cream, with its pure flavorings carefully and accurately prepared and frozen, is nourishing, body-building, strengthening. There's more food value in a quart of Hagan's Ice Cream than in a pound of the best steak.

Let him have all he wants. It's good for him. But, like yourself, be sure the boy insists on Hagan's Ice Cream.

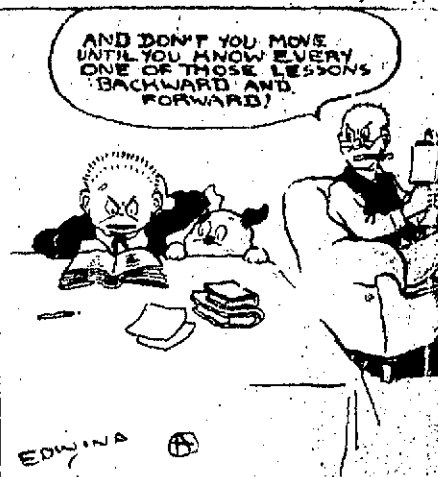

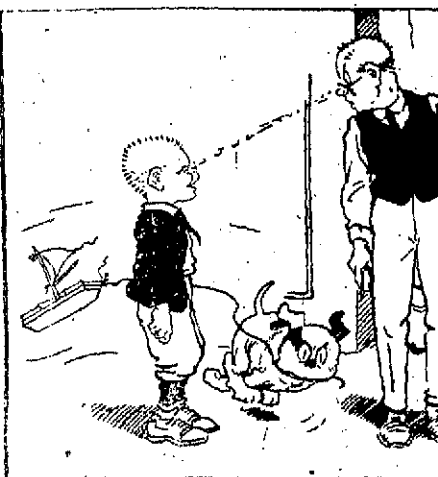

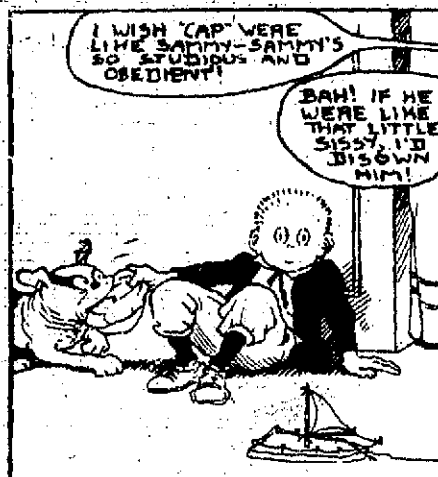

Believe me, there are no adulterations about that growing young American. He's all boy. And there are no adulterations in Hagan's Ice Cream. It's all ice cream.

What's good for the boy, in this case, is good for all the family, too.

The Price She Pays.

There is hardly an American woman nowadays who can keep pace with the demands made upon her time and energy without paying the penalty of ill-health. It may be that dreadful backache, dragging pains, headaches, nervousness or the tortures of a displacement. It is the price she pays. To women in this condition Lydia E. Pinkham's Vegetable Compound comes as a boon and a blessing. A simple remedy made from roots and herbs which brings glorious health to suffering women.—Adv.

—and now comes the demand for autumn fabrics

WHEN cool days begin to drive folks indoors and leave deserted porches that were gay all summer, then sewing machines begin to hum and our dress material and pattern counters grow very busy.

Sheer organdies and mulls have disappeared and in their places are lustrous silks and deep-filled woollens with rarely beautiful braids and embroideries to trim them, while amateur seamstresses as well as those of greater skill will appreciate to the fullest the delicacy and charm of the ready-to-wear edgings and collars, so effective as a finish for the home-made costume.

Silks in Enchanting Array— Fall Arrivals—Wool Fabrics

—Favorites of Fashion for the coming season, and including tinsel brocades, chiffon velvets, satin crepes, plain satins, baronettes, taffetas, messalines and velveteen in scores of lovely colors for street and dancing frocks, come at new low prices—

36-in. Satin Rene in navy, copen, African brown, taupe and black, the yard, \$4.60.
36-in. Silk Jersey—also called "Mignonette"—in African brown, copper, navy, black, mouse and Japan blue, the yard, \$3.50.
36-in. Fancy Baronette Satin, ivory only, the yard, \$3.50.
35-in. Satin Messaline in navy and black, the yard, \$1.95.
40-in. Paulette Satin in navy and brown, the yard, \$4.50.
40-in. Chiffon Velvets in black, African brown and navy, the yard, \$10.00.
35-in. Silk Shirting, blue, gold, copen, green and rose stripes on a plain white background, the yard, \$1.65.
40-in. Crepe Taffeta and 40-in. Satin Radiant in blue, brown, burgundy, mauve, taupe, navy, myrtle, copen, dust and black, the yard, \$3.35.
40-in. Satin, all silk and in black, navy and brown, the yard, \$3.95.

Black Silks in High Favor

Black Satins, 36 to 40-in. widths, the yard, \$2.50 to \$5.50.
Black Crepe Meteor, 40-in., the yard, \$4.00 and \$5.00.
Black Gorgelette Crepe, 40-in., the yard, \$3.50.
Black Satin Charmeuse, 40-in., the yard, \$5.00.
Black Chiffon Taffeta, the yard, \$2.25, \$2.65 and \$2.75.
Black Canton Crepe, now \$5.50 the yard.

—Include a striking and unique selection of novelty and plain weaves that will be in demand for suits, coats and skirts as well as tailored dresses. Velours, tricelines, broadcloths, jerseys, eplinge, repps, serges and flannels are shown in a comprehensive color range.

Nine women out of every ten are wanting materials for plaided skirts and not only can we supply the most desirable fabrics, but we will have the plaiting done.

Tricelines, serges repps and broadcloths in plain colors will be hemmed and plaited box, side or accordion—any style you want at the bare cost of the material and work and they are only \$4.00 to \$9.00 the yard.

—And the other woman will want a Highland "plaidie"—

—just a single length allowing for hem, because these autumn plaids so lovely in their soft-damned finish and delightful ruddy browns—splashed with gay stripes and squares of green and blue, bright orange and a dash of red, are also economically wide, some being 58 inches. Widths vary from 40 to 58-in. and prices from \$4.00 to \$3.00 the yard.

Now broadcloths hurry in to play their part—

—and it will be a stellar role; for handsome gowns and suits are being made from this material, while every child who's one year older needs a coat. Brown, myrtle, navy, copen, taupe and black, all 58 inches wide, broadcloths are shown in various shades of soft and lustrous greys, which are priced at \$5.50, \$6.50 and \$7.00 the yard.
